

HT-C-20

1. 20 amp output.
2. Microprocessor controlled, multistage charging.
3. Wide voltage range operation (90-135 VAC; 180-270 VAC, 50/60 Hz)
4. Automatic 21-day top-up program.
5. Durable and corrosion resistant chassis.
6. Optional remote LED panel to indicate charge status.
7. Over-temperature shutdown and overload protection.
8. Transformer isolated for safety.
9. Reverse polarity protection.
10. Short-circuit and surge protection.

Model	HT-C-20
Output current	20A(12V) / 10A(24V)
Output voltage(Vdc) charge	14.4V(12V) / 28.8V(24V)
Output voltage(Vdc) Float	13.0V(12V) / 26.0V(24V)
Output voltage(Vdc) Equalize	15.0V(12V) / 30.0V(24V)
AC input voltage	115V / 230V
Frequency	50 / 60Hz
charger efficiency	>80%
Recommended Battery type	lead acid
Recommended Battery size	6-200AH
charging Type	3 stage
Remote Control	Yes
Operating temp	0°C~40°C
storage temp	-25°C~70°C
Dimension (L.W.H)/mm	300 x 179 x 82
Net Weight (kg)	3.1
